WHO WE ARE

YOUNG

Product quality, agile and efficient service distinguish us in the sector as dynamic and competitive as ours. We started in 2009 and dedicated ourselves to the cutting and commercialization of pork meat.

DYNAMIC

To meet the growing demand and adaptation to veterinary requirements and quality, we have launched an extensive program of construction of new facilities in Roda de Ter that will be carried out over 5 years, in 3 phases:
2nd phase (till 2020) - construction of a new cutting room
3rd phase (till 2022) - extension of the freezing warehouse

OUR INSTALACIONES

PRODUCTION PLANT RODA DE TER

ES 10.026735/B CE

8.000m² inaugurated in January 2018, an investment of about € 7,000,000

FRESH TASTY HEALTHY

FLEXIBLE

Agile and punctual supply: we complete the customer service with timely management of orders through our fleet of trucks or external transport service. The objective is to ensure total control over the shipping processes and adaptation to the needs of the customer, offering a 'door to door' service in a time of 24/48 hours.

FLEET

We have our own fleet that distributes nationally as well as agreements with the main international transport companies.

FREEZING TUNELS RODA DE TER

4 fast freezing tunnels with a daily capacity of 150t

COLD STORAGE RODA DE TER

3 000,000kg capacity
